

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: June 13, 2012

Board Item: V-A-4

REVISED

Warehouse Bar Code Technology Solution Contract # 14064A & # 14064B

Action by Consent

Action

Information

Denver Water has identified a significant business need for improved efficiency of Warehouse inventory transactions. Installation and implementation of bar coding software and hardware for Warehouses 1 and 2, including the Yard at Denver Water's Westside Facility, is necessary to accomplish process improvements and improved efficiencies.

A Request for Proposal was sent to 8 potential bidders, two of whom responded. Both respondents attended two intensive meetings to explain and discuss the architecture of their software as well as their user interface. Successful implementation experience with our version of the JDE EnterpriseOne system was a key aspect of the selection process. After a thorough analysis of the pros and cons of each software solution, it was determined that RF-SMART, a platinum JDE partner, was the most responsive bidder. Contract No. 14064A will include the software installation and all associated consulting fees. Contract No. 14064B will include the on-going maintenance of such software and will be renewable on an annual basis.

Funds for Warehouse Bar Code Technology are included in the Information Technology 2012 budget. The funds are identified in the budget as: 4IT0050 Purchasing & Warehouse process integration (Inventory Bar Coding).

Recommendation:

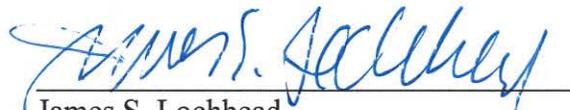

It is recommended the Board authorize award of Contract No. 14064A to RF-SMART for Warehouse Bar Code Technology for the contract period June 13, 2012 through December 31, 2012 for a total contract amount not to exceed \$106,774.80 and the award of Contract No. 14064B to RF-SMART for on-going Software Maintenance for the contract period July 13, 2012 through July 12, 2013 for a total contract amount not to exceed \$76,800.00. The total cost of these services will be \$183,574.80.

Approvals:

Respectfully submitted,

Christopher R. Dermody
