Information

At its August 20, 2003 meeting, the Board entered into a contract with URS under which URS serves as the contractor to the Corps of Engineers for the NEPA permitting process for the Moffat Collection System Project. The first three phases of the EIS process were completed under this contract. Under a contract approved on June 11, 2008, URS is completing Phase IV (b) of the EIS.

The phases of this project are:

**Phase I** EIS Scoping (Complete)

**Phase II** Conduct a Preliminary Alternatives Screen, develop the Purpose and Need documentation. (Complete)

**Phase III** Conduct the reconnaissance studies; develop the screening criteria; and Conduct the screen of reconnaissance alternatives. (Complete)

**Phase IV (a)** Assess the short and long term impacts of direct and indirect effects of each alternative.  
Prepare a PDEIS. (Complete)

**Phase IV (b)** Respond to agency comments (PDEIS) and prepare a Draft EIS for public distribution. (In progress)

**Phase V** Provide responses to comments on the DEIA, revise DEIS and prepare the Final EIS. (Purpose of this Board Item)

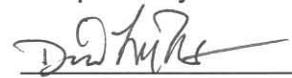

### RECOMMENDATION:

It is recommended that the Board authorize the attached contract with URS for a not to exceed amount of \$1,108,686 for the completion of **Phase V** of the Moffat Collection System EIS. The contract will now total \$6,249,765.
