

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: October 12, 2011

Board Item: V-A-3

Authorization of Additional Funds for Air Release and Vacuum Break Valves

Action by Consent

Action

Information

Air release valves and vacuum break valves are stock items used for new installations and replacements in Denver Water's distribution system. The Board entered into Contract No. 13266A with Ferguson Enterprises, Inc. ("Ferguson") on November 1, 2010 to furnish air release and vacuum break valves. The original contract period is November 1, 2010 through October 31, 2011, for a total contract amount not to exceed \$90,000.00.

Denver Water and Ferguson have mutually agreed upon a contract extension date of October 31, 2012, through which Ferguson has agreed to furnish the air release and vacuum break valves to Denver Water at the same prices as contained in the original contract.

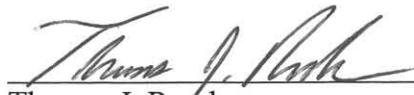

Air release and vacuum break valve costs are allocated to specific projects. These costs are included in the 2011 and 2012 budgets.

Recommendation:

It is recommended that the Board authorize the additional funds for Contract No. 13266A to Ferguson in the amount of \$95,000.00, for a total compensation not to exceed \$185,000.00 and extend the contract completion date to October 31, 2012.

Approvals:

Respectfully submitted,

Thomas J. Roode
Director of Operations and Maintenance

James S. Lochhead
CEO/Manager

Angela C. Brimont
Director of Finance
