

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: March 10, 2010

Board Item V-A-7

Tabulation of Bids for PVC Pipe

Action by Consent

Action

Information

Polyvinyl Chloride (PVC) pressure pipe is used by Denver Water for potable and non-potable water line installations and repairs. Bid documents stated a single award would be made for all items. Unit prices are firm for the entire contract period.

Requests for bids were sent to forty-two potential bidders, and faxed to eight SBE organizations, with five responding per the attached tabulation. None of the respondents were SBE's. The low bid submitted by HD Supply Waterworks is, on average, approximately 3% higher than the previous contract.

The previous contract for PVC pipe was awarded to HD Supply Waterworks on May 20, 2009.

Funds are included in the 2010 Budget and will be included in the 2011 Budget for these expenditures (MPC 5QA0002).

Recommendation:

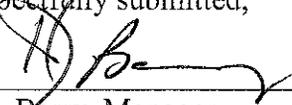

It is recommended the Board authorize award of Contract No. 12866A to HD Supply Waterworks, to furnish PVC pressure pipe, for the period May 1, 2010 through April 30, 2011, for a total contract amount of \$310,000.00.

Approvals:

Brian Good, Director of Oper. & Maint.

Respectfully submitted,

H. J. Barry, Manager

David LaFrance, Director of Finance
