

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: May 8, 2013

Board Item: V-A-4

Authorization of Funds for Generator Maintenance Support Services Contract #14518A

Action by Consent

Action

Information

Denver Water requires generator maintenance support services for its Operations & Maintenance Fleet Administration Department. Examples of services required include, but are not limited to, major/minor equipment repairs, on-going monthly preventative maintenance, critical maintenance support, on-call service requirements, emergency maintenance service repairs, load bank and fuel testing, and providing service parts as deemed necessary by the Denver Water Fleet Administration.

The Request for Proposals was downloaded by twenty-two (22) potential suppliers. Denver Water received a total of six (6) responses, two (2) of which were from SBEs. After an extensive review, evaluation, and analysis of proposals, which included sample invoicing, maintenance data reporting, and a site visit of the facility, it was determined that the most responsive and responsible proposer was Gas Drive Global (US), Inc. The proposed contract term is for an initial two (2) year term with the option to renew for two (2) additional one-year terms.

Funds for generator maintenance support services are included in the Operation & Maintenance Fleet Administration budget. The total amount necessary for generator maintenance support services through 2015 is \$745,879.30, which requires a budget variance for \$286,044.56 to the 2013 budget. This 2013 budget offset is being funded via savings realized through the request for proposal competitive selection process for Dillon Dam Security services. Funds will be included in the 2014 and 2015 budgets.

Recommendation:

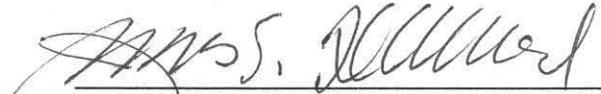

It is recommended that the Board authorize the award of Contract No. 14518A for generator maintenance support services to Gas Drive Global (US), Inc., for the contract period May 8, 2013, through May 30, 2015, for a total contract amount of \$745,879.30.

Approvals:

Thomas J. Roode
Director of Operation & Maintenance

Angela C. Bricmont
Director of Finance

Respectfully submitted,

James S. Lochhead
CEO/Manager
