

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: October 14, 2009

Board Item: V-A-6

**Authorization of Additional Funds for Waste Disposal Site**

Action by Consent

Action

Information

Denver Water's Transmission and Distribution Section excavates holes in the streets for new installations and also performs repairs to the distribution system. When these excavations occur, there are several types of solid waste removed from the construction site, which include soil, dirt, concrete, asphalt, cast iron material, rebar, trees, and sand. Usage has intensified substantially due to increased activity in main breaks and pipe replacement activities.

On January 9, 2008 Denver Water entered into Contract 11391A with Albert Frei & Sons, Inc. to provide a waste disposal site for the period of January 1, 2008 through February 28, 2010, for a contract amount of \$670,000.00. Expenditures to date are \$652,742.49. Additional funds are needed in the amount of \$195,000.00 through February 28, 2010.

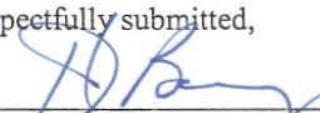

Funds are included in the 2009 Budget and will be included in the 2010 Budget for this expenditure (Various MPC's). It is anticipated that approval of the additional amount will not exceed the 2009 Budget.

**RECOMMENDATION:**

It is recommended the Board approve an amendment to Contract No. 11391A with Albert Frei & Sons, Inc. to furnish additional waste disposal management, for a total contract amount not to exceed \$865,000.00.

**Approvals:**

Respectfully submitted,
