

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: October 14, 2009

Board Item: V-A-8

Tabulations of Bids for Rental of Heavy Equipment

Action by Consent

Action

Information

Denver Water requires rental of heavy equipment for various projects on an as-needed basis. Supplier agreements provide fixed pricing in advance for first call on equipment needed on short notice. Projects for which heavy equipment rental is needed include Vasquez Canal and the South Boulder Diversion Canal.

Requests for bids were sent to twenty-seven potential bidders, and faxed to nine SBE trade organizations. Denver Water received nine responses as displayed on the attached bid tabulation, with none of the respondents being SBE's.

Three of the nine responding companies were the low bidder for numerous pieces of equipment, with no individual company being the low bidder for a majority of items. Denver Water will rent from all three of the low bidders based first on price and then availability.

Funds are included in the 2009 Budget and will be included in the 2010 Budget for these expenditures (Various MPC's).

RECOMMENDATION:

It is recommended the Board authorize award of Contract No. 12375A to Honnen Equipment Company, Power Equipment Company, and Worldwide Rental for a total contract amount not to exceed \$600,000.00 for the rental of heavy equipment for the contract period November 1, 2009 through October 31, 2010.

Approvals:

Brian Good, Director Operations/Maintenance

Respectfully submitted,

H. J. Barry, Manager

David LaFrance, Director of Finance
