

Denver Board of Water Commissioners

Title:

Contract Extension with Modis, Inc. for IT Infrastructure Support Services

Meeting Date: 7/8/2009

Contract/Proposal 11953A

Action by Consent

Action

Information

Over the past nine months, the IT Infrastructure Support section has been searching for an individual with a specific combination of network engineering and Unix system administration skills. Individuals with this combination of skills are difficult to find. These support skills are needed to properly support the growth of our wide area and local area networks, as well as the growth of our Unix server infrastructure which hosts new systems such as the Mobile Workforce Automation System and the new CIS System.

Modis, Inc, has presented one of their contractors, Allen Buswell, who possesses all of the right qualifications. Modis, Inc. was engaged in September, 2008 to provide IT Infrastructure support services, augmenting staffing in the Tier IV Infrastructure Support section of the Information Technology division. This contract extension with Modis, Inc. will engage Allen Buswell for a one year period at a rate of \$75/hour.

RECOMMENDATION:

It is recommended the Board approve this contract extension with Modis, Inc., at a cost of \$96,000, resulting in a total contract value of \$186,600.

Chris Dermody, Director Information Technology

Patricia L. Wells, General Counsel
