

Denver Board of Water Commissioners

Title:

**Additional Contracts Scheduled to Renew and/or Add Funding
in the 3rd Quarter 2009**

Meeting Date: 7/8/2009

Contract/Proposal

 Action by Consent Action Information

Denver Water has a number of contracts that renew on an annual basis or need additional funding during the year. These contracts are reviewed by the contract administrators and they have determined that the contracts continue to be of value, as well as a necessity to the operation of Denver Water.

The original terms and conditions of these contracts have remained unchanged. The total contract expenditure, including additional funding, is over \$100,000 and therefore is being provided to the Board for their review.

As requested by the Board, the contracts summarized in the attached document are those that are renewable or need additional funding for the next quarter.

RECOMMENDATION:

Approvals:

David LaFrance, Director Finance
