

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: October 9, 2013

Board Item: V-E-2

**Tabulation of Proposal for the
Emergency Road Repair of Eldorado Springs Drive - Kneale Road
Contract 15215A**

Action by Consent

Action

Information

On September 23, 2013, a proposal was received for the Emergency Road Repair of Eldorado Springs Drive – Kneale Road. The project consists of providing all labor, materials, and equipment for the Emergency Road Repair of Eldorado Springs Drive/Kneale Road including the following major components: Micropiles, Concrete Cap, PVC Utility Line Casing, and J Barriers. The emergency work is required due to the September 2013 flood event in Eldorado Springs Drive which prohibited Denver Water crews from accessing our facilities. Payment for work will be on a time and material basis. Denver Water is working with Colorado State Parks, Xcel and private property owners for cost sharing responsibilities.

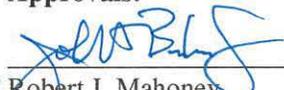

A proposal was received by Rock Solid Solutions Corporation of Parachute, Colorado in the amount not to exceed \$257,254.78. The Engineer’s Estimate for the work was \$250,000.00.

The 2013 Capital Operating Plan (MPC 4LA0001) does not include sufficient funds for this project. This MPC has been assigned to keep track of the costs for flood remediation.

Recommendation

It is recommended that the Board award Contract 15215A to Rock Solid Solutions Corporation for the Emergency Road Repair of Eldorado Springs Drive – Kneale Road Project in the amount not to exceed \$257,254.78.

Approvals:

for 
Robert J. Mahoney
Director of Engineering
