Information

Denver Water uses Toby Cordova's Trucking, LLC ("TCT"), a contract hauler, to remove from jobsites to a disposal site several different types of solid waste material ("spoils"), as well as to perform pickup and delivery of squeegee sand and aggregate base course. The spoils include materials such as soil, dirt, concrete, asphalt, which are generated when the Transmission and Distribution Section performs street excavations to install new water lines and repair the water distribution system. The initial contract period is May 1, 2012 through June 30, 2014, with the option to extend. Based on TCT's superior performance, Denver Water would like to extend Contract No. 14027A for one additional year while the details of the Aggregates Storage Rapid Improvement Event are finalized throughout 2014 and 2015.

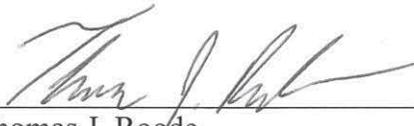

Funds for hauling services are included in the 2014 and 2015 budgets under MPC 4JC0001.

Recommendation:

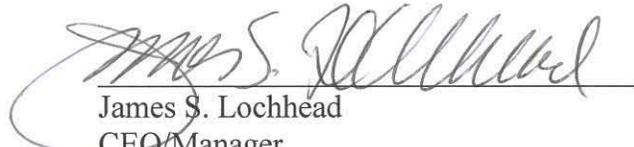

It is recommended that the Board authorize additional funds for Contract No. 14027A with Toby Cordova's Trucking, LLC, for the revised contract term of May 1, 2012 through June 30, 2015, in the amount of \$750,000.00, for a total contract amount not to exceed \$3,350,000.00.
