Information

As part of the regionally approved FasTracks Transportation Project, the Regional Transportation District (RTD) has initiated final design on the Denver Union Station Transit Project. Utility relocations are scheduled to begin in June 2009.

Denver Water and RTD have negotiated project responsibilities based on Denver Water's Operating Rules and Engineering Standards. In summary, Denver Water is not responsible for any costs associated with the Denver Union Station Transit project. RTD will be contracting for the necessary work, and Denver Water will be reimbursed for our inspection and field support activities.

The 2009 Capital Improvement Plan (MPC 2DD0269) includes funds for this project

RECOMMENDATION

It is recommended that the Board execute Agreement 12209A defining design, construction, and cost responsibilities associated with the water works modification made necessary by the FasTracks Denver Union Station Transit Project.
