Information

Denver Water entered into Contract No. 13800A with Altus Traffic Management (“Altus”) on October, 1, 2011. Altus Traffic has provided professional and reliable Traffic Control and Barricade service to Denver Water, responding quickly at all hours as needed. This is a critical component of Denver Water’s response to after hour emergencies.

Denver Water does plan to rebid this contract when it expires in 2015, but has negotiated an extension in exchange for no price increases for the remainder of the contract period.

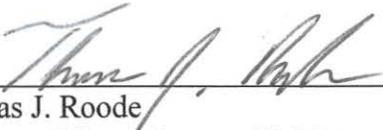

Funds for this contract are included in the 2014-2015 budgets under various MPC’s in Capital and Part 4.

Recommendation:

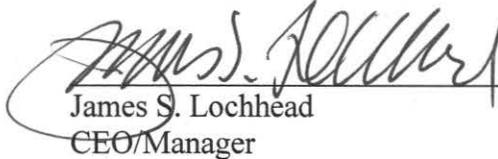

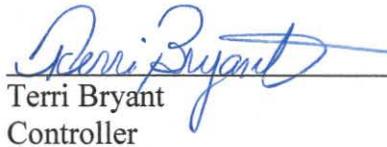

It is recommended that the Board authorize the additional funds for Contract No. 13800A with Altus for the remainder of the contract term through September 30, 2015 in the amount of \$1,200,000.00, and a total contract amount not to exceed \$3,000,000.00.

Approvals:
