

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: April 24, 2013

Board Item: 2-A-5

Revision to Board Operating Rule 4.04.3 regarding Operational Requirements for the use of recycled water

Action by Consent

Action

Information

The operation of Denver Water's recycled water system is regulated by the Colorado Department of Public Health and Environment under Regulations 61 & 84. Additional requirements are set forth in Chapter 4 of the Operating Rules.

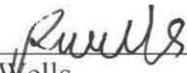

Operating Rule 4.04.3 imposes stricter operational requirements on recycled water customers, and makes recycled water a less attractive product to potential new users. Changing the language of the Operating Rule will bring Denver Water's requirements into closer alignment with State regulations, and make it easier for customers to comply with Denver Water operating rules.

Recommendation:

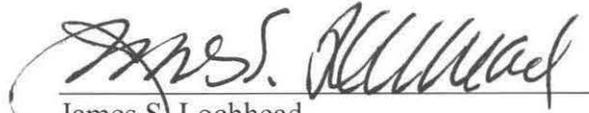

Staff recommends that the Board adopt the revised language for Operating Rule 4.04.3. The Operating Rule is included as Attachment A.

Approvals:

Respectfully submitted,

Patti Wells
General Counsel

James S. Lochhead
CEO/Manager

Dave Little
Director of Planning

Julie Anderson
