

# DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: November 9, 2011

Board Item: V-A-10

## Authorization of Additional Funds for Saw-Cutting Services

Action by Consent

Action

Information

Saw-cutting is used to cleanly cut the borders of asphalt or concrete sections that need to be removed in order to allow Transmission and Distribution crews to perform pipe installation or emergency repairs. This contract will reach the not-to-exceed amount due to more work occurring on streets with cobblestones, brick pavers and deeper than usual paving depths. Additionally the City of Denver's regulations regarding Best Management Practices ("BMPs") for storm water management limits the amount of roto-milling that can be done which creates the need for more saw-cutting. To accommodate the additional demand for saw-cutting Contract No. 13467A will need additional funds.

Saw-cutting services are included in the Operations and Maintenance budget for 2011 and 2012 under various MPCs.

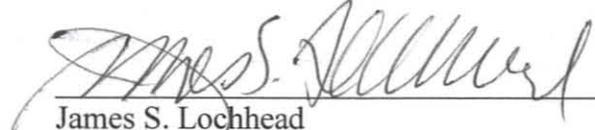

### Recommendation:

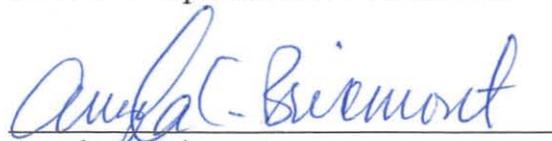

It is recommended that the Board authorize the additional funds for Contract No. 13467A to Russ T. Diamonds, Inc., in the amount of \$200,000.00, for a total compensation not to exceed \$300,000.00.

### **Approvals:**

Respectfully submitted,
