Information

Over the past ten years, Denver Water has acquired ortho-photography of its service and collection system areas by participating in Denver Regional Council of Governments (DRCOG) sponsored projects. These project occurred in 2004, 2006, 2008 and 2010. The ortho-photography covers approximately 5,000 sq. miles at various levels of resolution. With four years having passed since the 2010 ortho-photography was acquired, it needs to be updated in order to properly support numerous Denver Water mapping activities including; water resource planning, environmental planning, operational decision making and conservation analysis.

Funds for Denver Water's share of the 2014 project expenses are included in the 2014 Budget (MPC: 4JN0002).

RECOMMENDATION

It is recommended that the Board authorize the payment of \$167,000.00 to the Denver Regional Council of Governments (DRCOG) for updated ortho-photography of its areas of interest.
