Information

Denver Water entered into Contract No. 13855A with Belfor Environmental ("Belfor") on January, 1, 2012 for asbestos abatement services.

Asbestos gaskets were identified at Foothills Water Treatment Plant while thirty two effluent filter valves were being replaced and additional funds need to be added to the Agreement. Once the abatement work at Foothills is complete, Belfor will be utilized for routine asbestos and lead abatement activity. The Agreement was also modified to add additional language for disaster response.

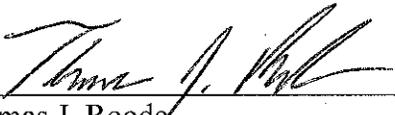

Funds for this contract are included in the 2015-2016 budgets under MPC 2CE0536.

Recommendation:

It is recommended that the Board authorize the additional funds for Contract No. 13855A with Belfor for the revised contract term January 1, 2012 through December 31, 2016 in the amount of \$80,000.00, and a total contract amount not to exceed \$170,000.00.
