

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: November 12, 2014

Board Item: II-A-12

Agreement with MWH Constructors
for the Design Phase Construction Management Services for the
Hillcrest Reservoir Tank Replacement
Agreement 15678A

Action by Consent Action Information

On August 28, 2014, proposals were received for Design-Phase Construction Management Services for the Hillcrest Reservoir Tank Replacement Project. The scope includes attendance at design meetings, estimating, constructability reviews, scheduling, phasing, work package recommendations, and construction delivery method analysis.

Three firms were selected to submit proposals from a field of six that responded to a request for Statement of Qualifications (SOQ). Three proposals were received and were ranked on criteria including skills, experience, support capabilities, and cost. The highest ranked proposal was submitted by MWH Constructors of Broomfield, Colorado in the amount of \$122,666.48. This work runs through the 30% design phase. It is anticipated that additional design phase services will be amended to this Contract at a later date. Construction delivery services with this firm may be negotiated under a separate contract during the construction phase.

There is no Minority and Women Business Enterprise (MWBE) goal established for this phase of the project due to minimal participation opportunities. MWBE participation will be requested in the project's construction phase.

The 2014-2015 Capital Improvement Plan (MPC 1DB0062) does not include sufficient funds for this project. The Distribution System Manager recommends that the 2015 Budget include funds for this contract.

Recommendation

It is recommended that the Board approve Agreement 15678A to MWH Constructors for the Design Phase Construction Management Services for the Hillcrest Reservoir Tank Replacement Project in the amount of \$122,666.48.
