Information

On March 13, 2014, proposals were received for the 2014 Pipe Rehabilitation Project. The project includes cleaning and lining approximately 31,947 linear feet of 6-inch to 12-inch water mains. Other major portions of project include: asphalt paving at access locations, replacement of cast-in-place concrete curb and gutter, replacement of fire hydrants and laterals, and bypass piping. Denver Water may retain the same Contractor for the 2015, 2016, 2017 and 2018 year projects as provided through the competitive selection process. With satisfactory performance, and at the discretion of Denver Water, the Contractor will be given the opportunity to submit a cost proposal for each subsequent year's project. The Contractor is not obligated to submit on subsequent year's projects, nor is Denver Water obligated to accept the Contractor's proposal.

A request for Statement of Qualifications was publicly advertised. Five pre-qualified General Contractors were approved by Denver Water staff, and provided with proposal packages. Four proposals were received and were evaluated based on cost. The selected winning proposal was submitted by Mainlining Service, Inc. in the amount of \$1,973,589.00. The Engineer's Estimate for the work was \$2,392,102.50.

*The Minority and Women Business Enterprise (MWBE) goal established for this construction project is 5% participation. Mainlining Service, Inc. achieved 5.06% MWBE participation.*

The 2014 Capital Improvement Plan (MPC 2DF0003) includes sufficient funds for this project.

### Recommendation

It is recommended that the Board award Contract 14421A to Mainlining Service, Inc. for the 2014 Pipe Rehabilitation Project in the amount of \$1,973,589.00.
