

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: September 11, 2013

Board Item: VI-F-3

Reporting of Staff Administered Construction Contract Contingency Amounts

Action by Consent

Action

Information

During 2013, the Board awarded two construction contracts for which the Board approved contingency amounts to be administered through change orders as needed by staff. Contingency funds used on these projects are to be reported to the Board. The two projects and contingency amounts are:

Contract No.	Title	Contractor	Contingency Amount
14063B	Ashland Reservoir Replacements	Western Summit	\$750,000
14978A	Design Services of The Ralston/Moffat Delivery System: Conduit No. 16 Replacement and Conduit No. 22 Abandonment	Dewberry-HDR	\$300,000

The construction contingency is to be used for unforeseen materials or equipment, or work items or site conditions that are not included in the original contract work, and which may require timely approval and processing. There may be individual change orders brought to the Board for approval that do not fall into these categories, or if large amounts or changes are required during construction.

Attached to this Board Item is the current report of contingency usage for the two projects.

Recommendation

Staff will report to the Board quarterly through an Information Item the ongoing status of contingency funds. Please reference the attached spreadsheet for the detailed Project Contingency Report.

Approvals:

Robert J. Mahoney
Director of Engineering

Respectfully submitted,

for James S. Lochhead
CEO/Manager

for Terri Bryant
