

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: February 10, 2010

Board Item: V-E-3

Tabulation of Bids for Waste Disposal Site

Action by Consent

Action

Information

Denver Water's Transmission and Distribution Section excavates holes in the streets for new installations and also performs repairs to the distribution system. When these excavations occur, there are several types of solid waste removed from the construction site, which include soil, dirt, concrete, asphalt, cast iron material, rebar, trees, and sand.

Denver Water uses a hauling Contractor to haul the solid waste to a disposal site. The estimated total volume of this combined waste stream is 7,000 trailer loads per year. This contract is for the disposal site for this waste stream.

Requests for bids were sent to forty-two potential bidders, including four SBEs, and faxed to eight SBE organizations. Denver Water received a total of five responses, including one SBE, as per the attached tabulation. The low bid submitted by Patrick Broda is, approximately 31% lower than the previous contract.

The previous contract for waste disposal site was awarded January 9, 2008 to Albert Frei & Sons, Inc.

Funds are included in the 2010 Budget and will be included in the 2011 and 2012 Budgets for this expenditure (MPC 5ZA0002).

Recommendation:

It is recommended the Board authorize award of Contract No. 12754A to Patrick Broda to furnish a waste disposal site, for the contract period March 1, 2010 through February 29, 2012, for a total contract amount not to exceed \$910,000.00. This award is based on lowest overall price and compliance with specifications.

Approvals:

Brian Good, Director of Oper. & Maint.

Respectfully submitted,

H. J. Barry, Manager

David LaFrance, Director of Finance
