

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: December 12, 2012

Board Item: V-A-19

**Task Order Agreement with Jacobs Engineering
for the Montbello Recycled Water Distribution System
Point of Service Connection Modifications
Construction Management Services
Agreement 14329B**

Action by Consent

Action

Information

Jacobs Engineering was awarded an On-Call (General Engineering) Services Contract (Contract 11875B) for the Montbello Recycled Water Distribution System Point of Service Connection Modifications. At that time, it was not anticipated that Denver Water would have the need for outside consultant construction contract administration or construction inspection services. Due to Engineering's Construction Management staff being committed to other Denver Water construction projects, consultant services will need to be utilized for this project.

Construction Management Task Order Agreement 14329B allows Jacobs Engineering to provide construction contract administration and construction inspection services in the amount of \$103,696.00.

The 2012/2013 Capital Improvement Plan (MPC 1BC0047) does not include sufficient funds for this project as consultant services for construction management and inspection were not projected during the budgeting process.

Recommendation:

It is recommended that the Board authorize the Construction Management Task Order Agreement 14329B to Jacobs Engineering for Construction Management Services for the Montbello Recycled Water Distribution System Point of Service Connection Modifications Project in the amount of \$103,696.00.
