

## Intersection Closure: 29<sup>th</sup> Ave. & Fenton St.

The Ashland Reservoir Tank Replacement Project has received a Right Of Way permit from the City of Wheat Ridge to allow for the temporary closure of the 29<sup>th</sup> Ave. and Fenton St. intersection. Construction and the intersection closure is scheduled to start on Monday, April 25<sup>th</sup> and is anticipated to last approximately one month.

The purpose of the intersection closure is to complete a pipe replacement. To minimize inconvenience to our neighbors, we've elected to perform a single month-long closure to complete multiple phases of work at once in order to reduce the amount of multiple sporadic closures. A traffic control plan has been approved by the City of Wheat Ridge and is shown at the bottom of this flier. There will be no through traffic and parking will be restricted around the intersection.

We understand this will cause inconvenience and appreciate your patience as we work to complete the work safely and efficiently. Please contact me directly with questions or concerns.

Sincerely,

Emma Boff  
Ashland Project Engineer
