Information

Contract# 11684A

CarpeDatum Consulting has been providing on-call production system support services for the TM1-based Engineering Project Planning and Enterprise Budgeting Systems since May, 2008. These services have been of great assistance to the Tier II Production Support Section within the IT Division, and are needed to some degree on a continuing basis. The IT division plans to reduce the need for these services over the course of time as in-house staff gain expertise with the custom TM1 systems developed by CarpeDatum.

Services provided under this contract extension will be charged at the current rate of \$150.00/hour. Sufficient funding for this contract extension is budgeted in the IT Professional Services budget (MPC 4JN0100).

Recommendation:

It is recommended the Board approve this contract extension with CarpeDatum consulting, Inc. for on-call production system support services, for an additional twelve months, for an additional amount not to exceed \$40,000. This extension will bring the total contract amount with CarpeDatum Consulting, Inc. to a total of \$205,000.

Approvals:

Chris Dermody,
Director of Information Technology

Respectfully submitted,

James S. Lochhead, CEO/Manager

Patricia L. Wells,
General Counsel
