

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: May 14, 2014

Board Item: II-A-5

**Tabulation of Bids for Cast Iron Valve Box Components
Contract # 15493A**

Action by Consent

Action

Information

Denver Water requires cast iron valve boxes to provide protection and allow operating access to valves after they are buried in the street. Valve box components are used in the replacement and repair of manholes and valve boxes.

An Invitation for Bid (IFB) was solicited through the Rocky Mountain E-Purchasing System (Bid-net). Ten Minority and Women Business Enterprise (MWBE) were solicited, one MWBE accessed attachments, and none provided a bid response because this item is limited to approved manufacturers under Engineering Material Specification 12.

Two responses were submitted, both of which were from SBEs. Three Schedules were included this bid. Castings, Inc., an SBE, was the low bidder for all three schedules.

Funds for cast iron valve box components are included in the Operations and Maintenance 2014 and ten year operating plan.

Recommendation:

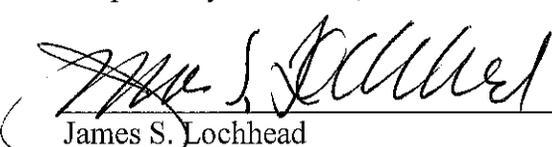

It is recommended that the Board authorize award of Contract 15493A to Castings, Inc., to furnish cast valve box components for the period June 1, 2014, through May 31, 2016, for a total amount not to exceed \$450,000.00.

Approvals:

Thomas J. Roode
Director of Operations and Maintenance

Respectfully submitted,

James S. Lochhead
CEO/Manager

Terri Bryant
Controller
