

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: January 9, 2013

Board Item: V-A-7

**Intergovernmental Agreement with the City Of Northglenn
for the Relocation of Conduit No. 81
Agreement 14726A**

Action by Consent Action Information

The City of Northglenn in conjunction with the Urban Drainage and Flood Control District is constructing drainage and pedestrian improvements to Grange Hall Creek under Washington Street at approximately 105th Place. These improvements will require the relocation of Denver Water’s Conduit No. 81. The City of Northglenn contends they are not subject to Denver Water’s Operating Rules and, therefore, does not need to contribute monies for the relocation. Therefore, the relocation is governed by local and state laws which set forth the funding responsibilities of utility relocations in the dedicated right-of-ways. In compliance with local and state laws, it has been determined that Denver Water is responsible for the cost of the relocation.

Intergovernmental Agreement 14726A defines the responsibilities associated with the relocation of Conduit No. 81 to accommodate the City of Northglenn’s improvements to Grange Hall Creek. The City’s Contractor will construct the relocation. Denver Water will inspect and approve the construction and reimburse the City of Northglenn for costs related to the relocation.

The 2013 Capital Improvement Plan (MPC 2DD0424) does not include sufficient funds for this project.

Recommendation

It is recommended that the Board approve Intergovernmental Agreement 14726A with the City of Northglenn for the relocation of Conduit No. 81 in the amount of \$395,280.00.

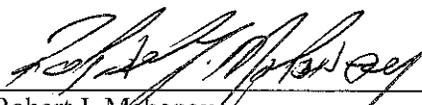

Budget Considerations Master Plan Code(s): 2DD0424
