

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: April 14, 2010

Board Item V-A-12

Tabulation of Bids for Mechanical Joint Ductile Iron Fittings

Action by Consent

Action

Information

Mechanical joint ductile iron fittings are used by Denver Water for water line installations and repairs. Fittings ranging in size from 3" to 24" O.D. are attached to water line pipes of similar sizes to allow various connections, changes in direction of the pipe, and plugging ends of pipes.

Requests for bids were downloaded by twenty-seven potential bidders, and faxed to eight SBE organizations, with four responding per the attached tabulation. None of the respondents were SBE's. The low bid submitted by Star Pipe Products is, on average, 38% lower than the previous contract.

The previous contract for Mechanical Joint Ductile Iron Fittings was awarded to Star Pipe Products on March 12, 2008.

Funds are included in the 2010 Budget and will be included in the 2011 Budget for these expenditures (MPC 5QA0002).

Recommendation:

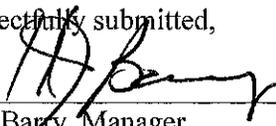

It is recommended the Board authorize award of Contract No. 12858A to Star Pipe Products, to furnish mechanical joint ductile iron fittings, for the period April 1, 2010 through March 31, 2011, for a total contract amount not to exceed \$550,000.00.

Approvals:

Brian Good, Director of Oper. & Maint.

Respectfully submitted,

H. J. Barry, Manager

David LaFrance, Director of Finance
