

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: February 9, 2011

Board Item: V-A-4

Tabulation of Bids for Mechanical Joint Restraints

Action by Consent

Action

Information

Mechanical joint restraints are used by Denver Water for securing mechanical joint fittings, valves and hydrants to water lines for new construction, pipeline repairs, and the Pipe Rehabilitation Program.

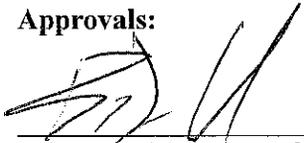

The Invitation for Bid was posted to Rocky Mountain Bidnet and was downloaded by 58 potential bidders, including 11 SBEs, and faxed to eight Chamber of Commerce organizations. Denver Water received a total of 3 responses, none of which were SBE's, see the attached tabulation. The low bid submitted by Star Pipe Products is approximately 7% lower than the current contract.

Mechanical Joint Restraints are used on a variety of projects and are budgeted in the line item for inventory issued from the warehouse stock. The 2011 inventory budget is \$11,656,470 of which \$974,895 has been spent year to date. Funds will also be included in the 2012 budget for this item.

Recommendation:

It is recommended that the Board authorize award of Contract No. 13408A to Star Pipe Products to furnish mechanical joint restraints for the period April 1, 2011 through March 31, 2012, for a total not to exceed \$230,000.00. This award is based on lowest price, acceptable delivery and compliance with specifications.

Approvals:

Brian Good, Director of Oper. & Maint.

Respectfully submitted,

James S. Lochhead, CEO/Manager

Angela Bricmont, Director of Finance
