

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: May 9, 2012

Board Item: V-A-16

Amendment to Task Order Agreement with HDR Engineering, Inc. for Borrow Haul Study

Contract # 11118H

Action by Consent

Action

Information

In the process of permitting the Moffat Collection System Project, Denver Water received comments about construction-related traffic impacts and inquiries about the possibility of using an existing railway to haul material in lieu of trucking.

HDR Engineering Inc. (HDR) completed a "Borrow Haul Study" in January 2009 which provided a cost estimate for using the railway to haul material to Gross Reservoir. After discussions with Boulder County, it was agreed that the 2009 report should be updated.

These additional studies and scope of work were anticipated and funds have been included in the 2012 Budget for this contract (11118H).

Recommendation:

It is recommended that the Board approve the Task Order Amendment 11118H with HDR Engineering, Inc. for the additional scope of work related to the Borrow Haul Study for the Moffat Collection System Project for a total amended contract amount of \$112,852.

Approvals:

Respectfully submitted,

Robert Mahoney
Director of Engineering

James S. Lochhead
CEO/Manager
