Information

On April 9, 2010, Denver Water (DW) entered into Task Order Agreement 12518B with Weston Solutions, Inc. for Security Modifications at Dillon Dam Design Phase. The original agreement was for an amount not to exceed \$73,606.00. There have been six amendments to this Agreement: the first three amendments were for time extensions, the fourth was in the amount of \$10,935.00 to provide assistance to Denver Water for the answering of queries from a prospective construction firm during the construction process, the fifth was in the amount of \$6,790.00 for three storm water sewer options for review by DW and Summit County, and the sixth was for a time extension.

During construction of the security improvements in accordance with the design and contract documents provided by Weston Solutions, Inc. it was realized that the configuration and layout dimensions of the guard houses and access control equipment were in error, causing an unsafe condition. Correction of this error during construction caused rework by White Construction Group (Contract 12558A) in the amount of \$69,172.88. The Board has executed a Change Order in this amount to White Construction Group to correct the unsafe condition. Weston Solutions shall reimburse the Board fully for costs in the amount of \$69,172.88, in accordance with Amendment No. 7, to correct the errors.

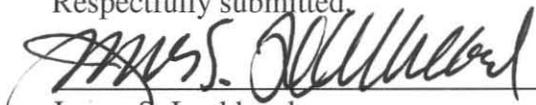

Recommendation:

It is recommended that the Board approve the Seventh Amendment to Task Order Agreement 12518B in the amount of (\$69,172.88) credited to Denver Water.
