

Denver Board of Water Commissioners

Title:

ELECTRICAL, INSTRUMENTATION AND CONTROL CONSTRUCTION INSPECTION SERVICES, SUBMITTAL DOCUMENT SECONDARY REVIEW AND CONTRACTOR INTERFACE FOR VARIOUS DENVER WATER PROJECTS

Meeting Date: August 12, 2009

Contract/Proposal: 12482A

Action by Consent

Action

Information

The substantial amount of ongoing Electrical Engineering work requires the use of additional Contractor resources (John Thibault) for electrical construction services support through December 31, 2010.

The Agreement shall provide electrical, instrumentation and control construction inspection services, submittal document secondary review, and Contractor interface for various Denver Water projects including, but not limited to:

- Williams Fork Hydro/Outlet Works Project (MPC 1AD0022)
- Cheesman Renovations Project (MPC 1AB0012)
- Roberts Tunnel Valve House Renovations (MPC 2AA0030)

The Contractor services shall include inspection and monitoring of the work performed by the Electrical, Instrumentation and Control Contractors on these projects. The document review shall consist of secondary review of submittals provided by the Electrical, Instrumentation and Control Contractors on these projects. The Contractor interface shall consist of attending construction meetings and other meetings pertaining to the Electrical, Instrumentation and Control Contractors on these projects. The Contractor shall be assigned by and report to the Electrical Engineering Manager.

Funds for this project are included in the above mentioned 2009-2012 Capital Improvement Projects.

RECOMMENDATION

It is recommended that the Board approve entering into Agreement 12482A with John Thibault in the amount of \$150,000.00 to provide construction inspection services for Board construction projects.

Approvals:

 Robert J. Mahoney
 Director of Engineering

 Manager

 Patti Wells
 General Counsel
