

DENVER BOARD OF WATER COMMISSIONERS

Meeting Date: August 27, 2014

Board Item: II-A-12

Interconnect Agreement with East Cherry Creek Valley Water & Sanitation District

Action by Consent

Action

Information

East Cherry Creek Valley Water & Sanitation District (ECCV) has a fixed limit contract with Denver Water for 771 acre-feet per year (contract 08559A). ECCV has a permanent connection at Denver International Airport (DIA) located at 26100 E. 114th Avenue which is used to maintain water quality at DIA and supply ECCV. The district also had a temporary connection located at 8490 S. University Boulevard. The agreement covering the temporary connection expired April 30, 2012.

This agreement will cover emergency operations at both locations. For the connection at DIA, it will allow water use above the fixed limit amount only in cases of emergency. Any water delivered through the University Boulevard connection will be for emergencies only.

It is not anticipated that the proposed agreement will have any immediate effect on Denver Water's budget because the connections are already in place.

Recommendation:

It is recommended that the Board approve this agreement.

Approvals:

Respectfully submitted,

Patti Wells
General Counsel

James S. Lochhead
CEO/Manager

Dave Little
Director of Planning

Tom Roode
Director of Operations and Maintenance

Julie Anderson
Director of Customer Relations
